

TABLE OF CONTENTS

Hair Loss Disorders in Domestic Animals

Foreword

Preface

Contributors

Part 1 Hair Follicle Biology

1.1 Ontogeny of the hair follicle 3

Desmond J. Tobin

1.2 Anatomy and physiology of the hair follicle 17

Desmond J. Tobin

1.3 Hair follicles in domesticated mammals with comparison to laboratory animals and humans 43

Wilfried Meyer

Part 2 How to Approach Alopecic Diseases

2.1 Clinical aspects 65

Monika Linek

2.2 Histopathological aspects 77

Lars Mecklenburg

Part 3 Non-Inflammatory Alopecias

3.1 Congenital alopecia 93

Lars Mecklenburg

3.2 Trichomalacia 115

Lars Mecklenburg

3.3 Disorders of hair follicle cycling 119

3.3.1 Hypothyroidism 119

Monika Linek

3.3.2 Hyperadrenocorticism 132

Rosario Cerundolo

3.3.3 Canine hyperestrogenism 142

Lars Mecklenburg

3.3.4 Canine alopecia X 148

Linda Frank

3.3.5 Canine recurrent flank alopecia 155

Manon Paradis

3.3.6 Telogen effluvium 161

Rosario Cerundolo

3.3.7 Canine postclipping alopecia 163

Rosario Cerundolo

3.3.8 Canine pattern alopecia 164

Manon Paradis

3.3.9 Breed-specific canine hair cycle abnormalities 169

Rosario Cerundolo, Manon Paradis, and Lars Mecklenburg

3.4 Hair follicle dystrophy and atrophy 177

Rosario Cerundolo and Lars Mecklenburg

3.5 Traumatic alopecia 185

Monika Linek

3.6 Scarring alopecia 189

Lars Mecklenburg

Part 4 Inflammatory Alopecias

4.1 Folliculitis with intraluminal organisms 193

Monika Linek

4.2 Eosinophilic folliculitis 215

Monika Linek

4.3 Pustular folliculitis 221

Monika Welle

4.4 Lymphocytic mural folliculitis 227

Monika Welle

4.5 Histiocytic or granulomatous mural folliculitis 243

Monika Welle and Lars Mecklenburg

4.6 Necrotizing mural folliculitis 249

Monika Linek and Lars Mecklenburg

4.7 Alopecia areata 253

Desmond J. Tobin

4.8 Sebaceous adenitis 269

Monika Linek

Index 273.
