TABLE OF CONTENTS

List of Contributors

Preface

Acknowledgments

Section I: General topics in anesthesia and analgesia 1

1 Anesthetic process 3
Yishai Kushnir and Carolyn M. McKune

2 Anesthesia equipment and monitoring 28
Jennifer Sager and Carolyn M. McKune

3 Adverse events/anesthetic complications 52
Carolyn M. McKune and Angela Borchers

4 Anesthetic considerations for specific procedures 93
Amanda M. Shelby and Carolyn M. McKune

5 Anesthesia in patients with concurrent disease 141
Sharon Tenenbaum Shih

6 Anesthesia and analgesia in the exotic patient 197
Amanda M. Shelby and Carolyn M. McKune

7 Nonopioid analgesia alternatives and locoregional blocks 231
Vaidehi Paranjape and Stephen Cital

Section II: Drug formulary 277
Dario A. Floriano and Amanda M. Shelby

Appendices 385

Appendix A: Pain scale options 385

Appendix B: Cardiopulmonary resuscitation 393

Appendix C: Constant-rate infusion calculations 396

Appendix D: Creating dilutions and reconstituting solutions 397

Appendix E: Abdominal tap 399

Appendix F: Drugs to withhold or continue in the perianesthetic period (see drug formulary, Section II) 400

Appendix G: Calculating fluid drip rates 403

Appendix H: Epidural calculations 403

Appendix I: Conversions 403

Index 405.
