Abbreviations and definitions vii

About the companion website viii

Section I Introductory Bacteriology

1. Structure of bacterial cells 2

2. Cultivation, preservation and inactivation of bacteria 4

3. Bacterial genetics and genetic variation 6

4. Molecular diagnostic methods 10

5. Laboratory diagnosis of bacterial disease 12

6. Molecular subtyping of bacteria 14

7. Antibacterial agents 18

8. Antimicrobial susceptibility testing 20

9. Bacterial resistance to antimicrobial drugs 22

10. Bacterial infections 24

11. Structure and components of the immune system 26

12. Adaptive immunity 30

13. Protective immune responses against infectious agents 32

Section II Pathogenic Bacteria

14. Staphylococcus species 36

15. Streptococci 38

16. Corynebacterium species and Rhodococcus equi 40

17. Actinobacteria 42

18. Listeria species 46

19. *Erysipelothrix rhusiopathiae* 47
 20. *Bacillus* species 48
 21. *Clostridium* species 50
 22. *Mycobacterium* species 54
 23. Enterobacteriaceae 58
 24. *Pseudomonas aeruginosa* 62
 25. *Burkholderia mallei* and *Burkholderia pseudomallei* 63
 26. *Actinobacillus* species 64
 27. *Pasteurella* species, *Mannheimia haemolytica* and *Bibersteinia trehalosi* 66
 28. *Histophilus*, *Haemophilus* and *Avibacterium* species 68
 29. *Taylorella equigenitalis* 70
 30. *Moraxella bovis* 71
 31. *Francisella tularensis* 72
 32. *Lawsonia intracellularis* 73
 33. *Bordetella* species 74
 34. *Brucella* species 76
 35. *Campylobacter* species 80
 36. Spirochaetes 82
 37. Pathogenic, anaerobic, non-spore-forming Gram-negative bacteria 86
 38. Mycoplasmas 88
 39. Chlamydiae 92
 40. Rickettsiales and *Coxiella burnetii* 94
- Section III Mycology**
41. General features of fungi associated with disease in animals 98
 42. Dermatophytes 100

- 43. Aspergillus species 102
- 44. Yeasts and disease production 104
- 45. Dimorphic fungi 106
- 46. Zygomycetes of veterinary importance 108
- 47. Mycotoxins and mycotoxicoses 110
- 48. Pathogenic algae and cyanobacteria 114
- 49. Antifungal chemotherapy 116

Section IV Viruses and Prions

- 50. Nature, structure and taxonomy of viruses 120
- 51. Replication of viruses 122
- 52. Laboratory diagnosis of viral disease 126
- 53. Antiviral chemotherapy 128
- 54. Herpesviridae 132
- 55. Papillomaviridae 136
- 56. Adenoviridae 138
- 57. Poxviridae 140
- 58. Asfarviridae 142
- 59. Bornaviridae 143
- 60. Parvoviridae 144
- 61. Circoviridae 146
- 62. Astroviridae 147
- 63. Retroviridae 148
- 64. Reoviridae 152
- 65. Orthomyxoviridae 154
- 66. Paramyxoviridae 156

- 67. Rhabdoviridae 160
- 68. Bunyaviridae 162
- 69. Birnaviridae 163
- 70. Picornaviridae 164
- 71. Caliciviridae 166
- 72. Coronaviridae 168
- 73. Arteriviridae 170
- 74. Togaviridae 171
- 75. Flaviviridae 172
- 76. Prions 176

Section V Prevention and Control of Infectious Disease

- 77. Biosecurity 180
- 78. Vaccination 184
- 79. Disinfection 188
- Appendix: relevant websites 190
- Index 191
