

TABLE OF CONTENTS – Handbook on Poultry Diseases, 2nd Edition

- 1. Introduction**
- 2. Economic considerations in the prevention and control of poultry diseases**
 - 2.1 General Principles
 - 2.2 Fixed and Variable Costs in Poultry Production
 - 2.3 Gross Marginal Analysis
- 3. Health and performance of poultry in hot climates**
 - 3.1 Physiological Effects of High Ambient Temperature
 - 3.2 Design of Housing in Tropical Countries
 - 3.3 Management of Flocks at High Temperature
- 4. Prevention of disease**
 - 4.1 Mechanisms of Disease Transmission
 - 4.1.1 Transovarial Route
 - 4.1.2 Transmission on the Egg Shell Surface
 - 4.1.3 Direct Transmission
 - 4.1.4 Indirect Contact
 - 4.1.5 Dissemination by Wind
 - 4.1.6 Biological Vectors
 - 4.1.7 Feed
 - 4.1.8 Vaccines
 - 4.2 Biosecurity
 - 4.2.1 Conceptual Biosecurity
 - 4.2.2 Structural Biosecurity
 - 4.2.3 Operational Biosecurity
 - 4.3 Decontamination of Housing and Equipment
 - 4.3.1 Definitions
 - 4.3.2 Decontamination
 - 4.3.3 Disinfectants
 - 4.3.4 Public Health Considerations
 - 4.4 Disinfection of Poultry Houses
 - 4.5 Control of Rodents
- 5. Vaccination and medication**
 - 5.1 General Principles
 - 5.2 Significance of Maternal Antibody and Flock Protection
 - 5.3 Administration of Vaccines
 - 5.4 Medication

6. Special procedures relating to control of diseases in poultry operations

- 6.1 Control of Disease in Multiplier Breeder Farms
 - 6.1.2 Structural Biosecurity
 - 6.1.3 Operational Biosecurity
- 6.2 Control of Disease on Commercial Broiler Farms
 - 6.2.1 Structural Biosecurity
 - 6.2.2 Operational Biosecurity
- 6.3 Control of Disease in Commercial Egg Production Units
 - 6.3.1 Operational Biosecurity
- 6.4 Control of Disease in Hatcheries
 - 6.4.1 Structural Biosecurity
 - 6.4.2 Operational Biosecurity

7. Nutrition of chickens and dietary deficiencies

- 7.1 Establishing Nutritional Specifications
- 7.2 Nutrient Deficiencies
 - 7.2.1 Causes of Nutrient Deficiencies
 - 7.2.2 Low Energy Intake
 - 7.2.3 Deficiencies of Proteins or Amino Acids
 - 7.2.4 Fats
 - 7.2.5 Oxidative Rancidity
 - 7.2.6 Vitamin Deficiencies
- 7.3 Quality Control in Feed Manufacture.
