

Table of contents

Contributors vii

Preface ix

Acknowledgments xi

1. Review of Cardiovascular and Respiratory Physiology 3

Susan Bryant

2. The Preanesthetic Workup 13

Jennifer Dupre

3. Mathematics and Calculations for the Veterinary Anesthetist 29

Sharon Johnston

4. Records and Record Keeping 35

Heather Dulong

5. Preanesthetic Preparation 41

Connie Warren

6. Intravenous Access 49

Shawn Takada

7. Airway Maintenance 57

Darci Palmer

8. Anesthesia Equipment 71

Harry Latshaw and Deb Coleman

9. Introduction to Monitoring: Monitoring the ECG and Blood Gases 85

Jennifer Keefe

10. Monitoring: Pulse Oximetry and Temperature, and Hands-On 95

Amy Levensaler

11. Monitoring Blood Pressure and End-Tidal CO₂ in the Anesthetized Patient 105

Heidi L. Reuss-Lamky

12. Fluid Therapy and Blood Products 123

Courtney Beiter

13. Premedication and Sedation Drugs 135

Sandra Robbins

14. Induction Drugs 143

Lori Fuehrer

15. Inhalant Anesthetics 153
Sharon Fornes
16. Recovery of the Anesthetic Patient 159
Michelle Cheyne
17. Anesthetic Complications and Emergencies 167
Samantha McMillan
18. Ventilation Techniques in Small Animal Patients 187
Christine Slowiak
19. Anesthesia for Ophthalmology Patients 195
Kim Lockhead
20. Anesthesia for Patients with Cardiac Disease 205
Wendy Curtis-Uhle and Katy W. Waddell
21. Anesthesia for Small Animal Patients with Head Trauma or Increased Intracranial Pressure 219
Ellen LoMastro
22. Anesthesia for Thoracotomies and Respiratory-Challenged Patients 227
Susan Bryant
23. Anesthesia for Patients with Endocrine Disease 239
Susan Holland
24. Anesthesia for Patients with Renal Disease 245
Kristen Cooley
25. Anesthesia for Patients with Liver Disease 257
Heather Carter
26. Anesthesia for Pediatric Patients 267
Trish Farry
27. Anesthesia for Geriatric Patients 275
Trish Farry
28. Cesarean Section Techniques 283
Christopher L. Norkus
29. Anesthesia for Emergency Trauma Patients 293
Katy W. Waddell
30. Anesthesia for Nontrauma Emergency Patients 301
Ami Gilkey

31. Anesthesia for Small Exotics: Ferrets, Rodents, and Rabbits 313

Jennifer Stowell

32. Basic Physiology of Pain 325

Lynette DeGouff

33. Pain Assessment 333

Kim Lockhead

34. Pain Management Strategies 345

Kim Spelts and James Gaynor

35. Equine Anesthesia 357

Lawrence E. Nann

36. Ruminant Anesthesia 373

Sharon Kaiser-Klinger
