

TABLE OF CONTENTS – Current Therapy in Large Animal Theriogenology, 2nd Edition

Equine Theriogenology

1. Physiology and Endocrinology of Stallions
2. Reproductive Examination of the Stallion: Evaluation of Potential Breeding Soundness
3. Infertility and Diseases of the Reproductive Tract of Stallions
4. Surgical Correction of Abnormalities Affecting the Reproductive Organs of Stallions
5. Techniques for Artificial Insemination
6. Stallion Sexual Behavior Dysfunction
7. Clinical Reproductive Anatomy and Physiology of the Mare
8. Clinical Aspects of Seasonality in Mares
9. Clinical Examination of the Non-Pregnant Female Reproductive Tract
10. Control and Synchronization of the Estrous Cycle and Ovulation
11. Pregnancy Evaluation in the Mare
12. Retained Fetal Membranes
13. Management of Twin Pregnancy
14. Parturition and Dystocia
15. Abnormalities of Lactation
16. Immediate Care of the Postpartum Mare and Foal
17. Infectious Diseases of the Puerperal Period
18. Irregularities of the Estrus Cycle and Ovulation in Mares (Including Seasonal Transition)
19. Infertility Due to Non-inflammatory Abnormalities of the Tubular Reproductive Tract
20. Inflammation of the Tubular Reproductive Tract of the Mare
21. Bacterial Causes of Infertility and Abortion in the Mare
22. Equine Herpesvirus Infections
23. Equine Viral Arteritis
24. Bacterial Diseases in the Fetus and Placenta Associated with Fetal Loss in the Mare
25. Fungal Abortion
26. Evaluation and Management of High-Risk Pregnancy in the Mare
27. Induced Abortion
28. Surgical Correction of Abnormalities of the Female Reproductive Organs
29. Embryo Transfer and Newer Assisted Reproductive Techniques for Horses

Bovine Theriogenology

30. Clinical Reproductive Physiology and Endocrinology of the Bull
31. Evaluation of Potential Breeding Soundness of the Bull
32. Diseases of the Reproductive System of the Bull
33. Surgical Correction of Abnormalities of the Reproductive Organs of Bulls and

Preparation of Teaser Animals

34. Techniques for Artificial Insemination of Cattle with Frozen-Thawed Semen
35. Clinical Reproductive Physiology of the Cow
36. Estrus Detection
37. Progestogen-Based Estrus Synchronization for Beef Replacement Heifers and Cows
38. Synchronization of Ovulation Strategies in Dairy Cattle Using PGF_{2a} and GnRH
39. Pregnancy Diagnoses
40. Ultrasound Determination of Fetal Gender
41. Induced Abortion
42. Parturition and Dystocia
43. Principles of Colostrum Feeding
44. Postpartum Uterine Infections
45. Retained Placenta
46. Metabolic and Nutritional Diseases of the Puerperal Period
47. Ovarian Follicular Cysts
48. Infertility Due to Non-Inflammatory Abnormalities of the Tubular Reproductive Tract
49. Bacterial Causes of Bovine Infertility and Abortion
50. Viral Diseases of the Fetus
51. Protozoal Abortion in Cattle
52. Epizootic Bovine Abortion (Foothill Abortion)
53. Mycotic Bovine Abortion
54. Reproductive Toxicants
55. Dropsical Conditions Affecting Pregnancy
56. Effects of Environment on Bovine Reproduction
57. Effects of Nutrition on Reproduction in Dairy Cattle
58. Effects of Nutrition on Reproductive Performance of Beef Cattle
59. Heifer Development—Nutrition, Health, and Reproduction
60. Surgical Correction of Abnormalities of Genital Organs of Cows
61. Reproductive Health Programs for Dairy Herds: Analysis of Records for Assessment of Reproductive Performance
62. Reproductive Health Programs for Beef Herds: Analysis of Records for Assessment of Reproductive Performance
63. Assisted Reproductive Technology

Caprine Theriogenology

64. Clinical Reproductive Anatomy and Physiology of the Buck
65. Examination of the Reproductive Tract and Evaluation of Potential Breeding Soundness in the Buck
66. Infertility and Diseases of the Reproductive Organs of Bucks
67. Urogenital Surgery in Goats
68. Techniques for Artificial Insemination of Goats
69. Clinical Reproductive Physiology and Endocrinology of Does
70. Clinical Examination of the Female Reproductive Tract
71. Manipulating the Estrous Cycle in a Doe
72. Pregnancy Diagnoses in Goats
73. Parturition and Dystocia in the Goat
74. Postpartum Care of the Doe and Kid

- 75. Puerperal Nutrition, Metabolic Disease and Reproduction
- 76. Periparturient Infections and Structural Abnormalities
- 77. Infectious Causes of Abortion
- 78. Noninfectious Prenatal Pregnancy Loss in the Doe
- 79. Noninfectious Infertility in the Doe
- 80. Inherited Sex Abnormalities in Goats
- 81. Induced Abortion and Parturition in the Goat
- 82. Reproductive Health Program
- 83. Reproductive Biotechnologies in the Goat

Ovine Theriogenology

- 84. Reproductive Physiology of the Ram
- 85. Breeding Soundness Evaluation and Surgical Sterilization of the Ram
- 86. Artificial Insemination and Embryo Transfer in Sheep
- 87. Clinical Reproductive Physiology of Ewes
- 88. Sheep Breeding Strategies
- 89. Pregnancy Diagnosis
- 90. Abortion in Sheep—Diagnosis and Control
- 91. Lambing Management and Neonatal Care
- 92. Diseases of the Periparturient Ewe
- 93. Reproductive Health Management Programs

Porcine Theriogenology

- 94. Reproductive Physiology and Endocrinology of Boars
- 95. Infectious and Noninfectious Causes of Infertility in Boars
- 96. Reproductive Surgery in the Boar
- 97. Artificial Insemination in Swine; Boar Stud Management
- 98. Clinical Reproductive Physiology and Endocrinology of Sows; Mating Management
- 99. Clinical Examination of Female Reproductive Organs
- 100. Induction of Estrus and Control of the Estrous Cycle in Swine
- 101. Diagnosis of Pregnancy
- 102. Infertility Associated with Abnormalities of the Estrous Cycle and the Ovaries
- 103. Parturition and Dystocia in Swine
- 104. Postpartum Care of the Sow and Neonates
- 105. Diseases of the Puerperal Period
- 106. Bacterial, Rickettsial, Protozoal, and Fungal Causes of Infertility and Abortion in Swine
- 107. Viral Causes of Infertility and Abortion
- 108. Noninfectious Causes of Infertility and Abortion
- 109. Influence of Environment and Housing on Swine Reproduction
- 110. Reproductive Health Programs for Swine Herds
- 111. Using Statistical Process Control to Investigate Reproductive Failure
- 112. Assisted Reproductive Technologies in Swine

Llama Theriogenology

- 113. South American Demographics and Herd Management Practices

- 114. Reproductive Management of Llamas and Alpacas
- 115. Reproductive Anatomy and Life Cycle of the Male and Female Llama and Alpaca
- 116. Breeding Soundness Examination of the Male Llama and Alpaca
- 117. Semen Collection and Artificial Insemination in Llamas
- 118. Ovarian Function in Llamas and Alpacas
- 119. Breeding Soundness and Subfertility in Female Llamas and Alpacas
- 120. Ovarian Synchronization and Induction of Ovulation in Llamas and Alpacas
- 121. Pregnancy Diagnosis in Llamas and Alpacas
- 122. Eutocia, Dystocia and Post-partum Care of the Dam and Neonate
- 123. Embryo Technologies in South American Camelids
- 124. Surgery of the Reproductive Tract in Lamoids

Specialized Livestock Theriogenology

- 125. Reproductive Cycles in Female Cervids
- 126. Reproductive Anatomy and Physiology of Male Wapiti and Red Deer
- 127. Reproductive Behavior of Red Deer and Wapiti
- 128. Reproductive Management of Farmed Red Deer and Wapiti
- 129. Reproductive Management of Fallow Deer
- 130. Reproductive Management of White-tailed Deer
- 131. Reindeer Reproductive Management
- 132. Reproductive Management of Axis Deer
- 133. Antlers and Reproduction
- 134. Cervid Semen Collection and Freezing
- 135. Estrous Synchronization and Artificial Insemination in Domesticated Cervids
- 136. Application of Embryo Biotechnologies in Farmed Cervids
- 137. Reproductive Patterns in Female Bison
- 138. Reproductive Management of Bison
- 139. Pregnancy Determination and Fetal Aging of Farmed Red Deer, Wapiti and Bison
- 140. Diseases of Reproduction — Brucellosis
- 141. Other Reproductive Disease of Deer and Bison.
