

TABLE OF CONTENTS - Morphological Mouse Phenotyping: Anatomy, Histology and Imaging

1: Introduction

Origin of the Laboratory Mouse
Anatomical Nomenclature

2: Osteology

Bones of the Skull and Mandible
Vertebral Column and Thorax
Bones of the Thoracic Limbs
Bones of the Pelvic Limbs

3: Arthrology

Joints without Articular Cavity
Joints with Articular Cavity

4: Myology

Form and Structure of Muscles
The Skeletal Muscle Fiber
Comparative Anatomy of Mouse Musculature

5: Digestive tract

Oral Cavity
Pharynx and Esophagus
Stomach
Intestine
Liver

6: Respiratory apparatus

Nasal Cavity
Larynx
Trachea
Lungs

7: Urinary organs

Kidneys
Ureter
Urinary Bladder
Urethra

8: Male genital organs

Testicles and Epididymis
Accessory Genital Glands
Penis

9: Female genital organs

Ovaries

Uterine Tubes

Uterus

Vagina

Vulva and Clitoris

10: Anatomy of development

Ontogenic Development

Placenta

11: Circulatory System

Heart

Arteries

Veins

Lymphatic System

Blood and Lymph

12: The endocrine glands

Pancreas

Adrenal Gland

Thyroid Glands

Parathyroid Gland

Hypophysis

13: Nervous System

Central Nervous System

Peripheral Nervous System

14: Eye and related structures

Eyelids and Lacrimal System

Eyeball

Orbit

15: Vestibulocochlear organ

External Ear

Middle Ear

Internal Ear

16: Common integument

Skin

Modified Skin Structures.
