

TABLE OF CONTENTS

Current Research in Animal Physiology

chapter 1|22 pages

Animal Physiology and Circadian Photoresponses

chapter 2|10 pages

Complications in High Caloric Diet-Fed Rats

chapter 3|14 pages

Young Wild-Type Mice and Serotonin-Related Variables

chapter 4|25 pages

Neurogenesis of Peripuberal and Adult Rabbits

chapter 5|17 pages

Monkeys and Taste Development

chapter 6|10 pages

Intermittent Claudication in Canines

chapter 7|11 pages

Body Mechanics of Moving Cats

chapter 8|15 pages

Wound Repair on Horses with Equine CPNNB1 and PECAM1

chapter 9|10 pages

Genetic Factors of Scrotal Hernia in Commercial Pigs

chapter 10|13 pages

Acute Heat Stress Effect on Milk Serotonin of Cows

chapter 11|20 pages

Insect Physiology and Detection of Moving Targets

chapter 12|15 pages

Honey Bee Queen Physiology and Insemination

chapter 13|8 pages

High Heat Effect on City Ants

chapter 14|12 pages

Hemolymph Flow in Grasshoppers' (*Schistocerca americana*) Hearts

chapter 15|5 pages

Sexual Maturity and Swimming in Male Silver Eels ;
