

TABLE OF CONTENTS

Equine Sports Medicine and Surgery Basic and Clinical Sciences of the Equine Athlete 3rd Edition

Section 1: The Horse as an Athlete

1. History of Equine Exercise Physiology
2. The Horse as an Athlete
3. Welfare of Equine Athletes in Sport and the Social License to Operate
4. Laboratory Exercise Testing
5. Exercise Testing in the Field
6. The Connected Horse
7. Conditioning of the Equine Athlete
8. Genetic Basis of Equine Performance

Section 2: Musculoskeletal System and Lameness

9. Muscle Physiology: Responses to Exercise and Conditioning
10. Muscle Disorders of Equine Athletes
11. Epidemiology of Orthopedic Injury and Death in Athletic Horses
12. Skeletal Physiology: Responses to Exercise and Training
13. Tendon and Ligament Physiology
14. Joint Physiology: Response to Exercise and Training
15. Quantitative Assessment of Locomotion in the Athletic Horse
16. Objective Measurement of Lameness
17. Diagnosis of Lameness
18. Diseases of the Foot
19. Principles of Sport Horse Farriery
20. Distal Limb: Fetlock and Pastern
21. Metacarpus/Metatarsus
22. The Carpus
23. Elbow and Shoulder
24. Tarsus and Stifle
25. Axial Skeleton: Neck, Back, and Pelvis
26. Neurologic Causes of Gait Abnormalities in Athletic Horses
27. Soft Tissue Injuries: Tendinitis and Desmitis
28. Pharmacotherapy of Joint and Tendon Disease
29. Equine Rehabilitation

Section 3: Respiratory System

- 30. Upper Airway Function of Normal Horses During Exercise
- 31. Abnormalities of the Nasopharynx
- 32. Diseases of the Larynx and Trachea
- 33. Lower Airway Function: Response to Exercise and Training
- 34. Noninfectious Inflammatory Diseases of the Lower Airway of Athletic Horses (Including Equine Asthma)
- 35. Exercise-Induced Pulmonary Hemorrhage
- 36. Epidemiology and Control of Infectious Respiratory Disease in Populations of Athletic Horses

Section 4: Cardiovascular System

- 37. Heart and Vessels: Function During Exercise and Conditioning Adaptations
- 38. Arrhythmias and Abnormalities of the Cardiac Conduction System in Athletic Horses
- 39. Structural Heart Disease, Cardiomyopathy, and Diseases of the Large Vessels in Athletic Horses

Section 5: Metabolism and Nutrition

- 40. Energy Metabolism: Responses to Exercise and Training
- 41. Nutrition for the Equine Athlete: Nutrient Requirements and Key Principles in Ration Design

Section 6: Body Fluids, Electrolytes, Acid-Base, and Thermoregulation

- 42. Body Fluids and Electrolytes: Responses to Exercise and Training
- 43. Acid-Base Physiology at Rest, During Exercise, and in Response to Training
- 44. Abnormalities of Body Fluids and Electrolytes in Athletic Horses
- 45. Thermoregulation and Exercise-Associated Heat Illnesses

Section 7: Hematology, Biochemistry, and Immunity

- 46. Evaluation of Clinicopathological Abnormalities in Athletic Horses
- 47. Exercise and Immunity in Horses

Section 8: Gastrointestinal System

- 48. Gastrointestinal Disorders in Athletic Horses

Section 9: Behavior

49. Behavior and Behavioral Abnormalities in Athletic Horses

Section 10: Vision

50. Vision and Disorders of Vision in Performance Horses

Section 11: Veterinary Management of Athletic Horses

- 51. Veterinary Aspects of Training, Conditioning, and Racing Thoroughbred Racehorses
- 52. Veterinary Aspects of Training, Conditioning, and Racing Horses Used for Harness Racing
- 53. Veterinary Aspects of Conditioning, Training, and Competing Event Horses
- 54. Veterinary Aspects of Conditioning, Training, and Competing Dressage Horses
- 55. Veterinary Aspects of Conditioning, Training, and Competing the Showjumping Horse
- 56. Veterinary Aspects of Conditioning, Training, and Competing Polo Ponies
- 57. Veterinary Aspects of Conditioning, Training, and Competing Endurance Horses
- 58. Veterinary Aspects of Conditioning, Training, and Competing Western Performance Horses
- 59. Veterinary Aspects of the Aged Equine Athlete
- 60. Reproductive Management of the Athletic Horse
- 61. Emergency Procedures and First Aid for the Equine Athlete
- 62. Examination of the Equine Athlete Prior to Purchase

Section 12: Drug and Medication Use in Athletic Horses

- 63. Detection of Drug Use in Athletic Horses
- 64. Drug Effects on Performance of the Equine Athlete

Appendix A: Reference Values for Red Cell Variables in Athletic Horses

Appendix B: Reference Values for the Leukogram of Athletic Horses

Appendix C: Reference Values for Biochemical Variables in Athletic Horses.
