Section I General Considerations, Restraint, and Analgesia 1

1 General Surgical Considerations 3

Andrew J. Niehaus

Determining Surgical Candidacy	3
Preoperative Procedures	3
Preparing the Surgical Site	8
Postoperative Care	8
References	13

2 Surgical Restraint 15

Andrew J. Niehaus

General Considerations	15
Keep Animals Calm and Reduce Stress	15
Techniques That Divert the Animal's Attention	16
Methods That Reduce Kicking	19
Methods for Raising a Leg in Cattle	19
Methods for Restraining the Tail in Cattle	20
Methods for Casting Cattle	23
Other Restraints	23
Mechanical Restraint	25
References	27

3 Local and Regional Anesthesia 29

Andrew J. Niehaus

General Considerations for Local and Regional Anesthesia	29
Anesthesia for the Abdominal Flank in Cattle	30
Line Block	37
Anesthesia of the Distal Limb Via Vascular (IV) Infusion in Cattle (Bier Block)	38
Anesthesia of the Horn (Cornual Nerve Block)	39
Eye and Eyelid Anesthesia in Cattle	42
Teat Anesthesia in Cattle	48
Sacral and Subsacral Paravertebral Blocks	50
References	56

4 Epidural and Subarachnoid Anesthesia and Analgesia 59

Andrew J. Niehaus

Relevant Anatomy	59
Administering Epidural Anesthesia	63
References	72

5	General Anesthesia and Sedation	75
	<i>Andrew J. Niehaus</i>	
	General Considerations	75
	Venipuncture and IV Catheterization in Ruminants	76
	Injectable Sedation and Anesthetic Drugs	81
	General Anesthesia	86
	Recovery	88
	Regulatory Concerns in Food-Producing Animals	89
	References	90
6	Perioperative Analgesia	91
	<i>Andrew J. Niehaus</i>	
	Pain Management in Surgical Patients	91
	Commonly Used Analgesics	92
	References	94
	Section II Surgery of Head and Neck	97
7	Cornuectomy	99
	<i>Andrew J.T. Muir</i>	
	Indications and General Considerations	99
	Basic Cornuectomy in Cattle	99
	Surgical Technique	100
	Postoperative Care	100
	Surgical Cornuectomy in Cattle	101
	Cornuectomy in Goats	103
	Equipment and Supplies Needed for Cornuectomy in Cattle and Goats (Equipment Will Vary Depending on Desired Procedure)	104
	Reference	104
8	Sinus Surgery in Cattle	105
	<i>Andrew J.T. Muir</i>	
	Trephination of Sinuses in Cattle	105
	Equipment and Supplies Needed for Sinus Surgery in Cattle (Equipment Will Vary Depending on Desired Procedure)	108
	References	108
9	Dentistry	109
	<i>Andrew J.T. Muir</i>	
	General Considerations	109
	Routine Dental Examination	109
	Clinical Signs of Odontopathy	111
	Oral Tooth Extraction Technique	111
	Surgical Removal of Mandibular Cheek Teeth	112
	Surgical Removal of Maxillary Cheek Teeth	112
	Lumpy Jaw Debulking	113
	Equipment and Supplies Needed for Dentation Procedures in Ruminants (Equipment Will Vary Depending on Desired Procedure)	113
	References	113
10	Tracheotomy in Cattle	115
	<i>Andrew J.T. Muir</i>	
	Indications and General Considerations	115
	Restraint	115

Presurgical Procedures	116
Anesthesia	116
Surgical Technique	116
Postoperative Care	117
Equipment and Supplies Needed for a Tracheotomy in Ruminants (Equipment Will Vary Depending on Desired Procedure)	117
11 Esophagotomy in Cattle	119
<i>Andrew J.T. Muir</i>	
Indications and General Considerations	119
Anatomic Considerations	119
Restraint	119
Presurgical Procedures	119
Anesthesia	120
Surgical Technique	120
Postoperative Procedures	121
Equipment and Supplies Needed for Esophagotomy in Cattle (Equipment Will Vary Depending on Desired Procedure)	121
12 Surgery of the Eye and Adnexa	123
<i>Joseph W. Lozier</i>	
Introduction	123
Keratectomy	124
Enucleation	124
Eyelid Masses	127
Nictitans Masses	128
Entropion Correction	128
Temporary Tarsorrhaphy	129
Nictitating Membrane Flap	129
References	130
Section III Abdominal and GI Surgery	131
13 Surgery of the Umbilicus	133
<i>Joseph W. Lozier</i>	
Introduction	133
Umbilical Hernia	133
Treatment	134
Umbilical Infection	136
References	139
14 Laparotomy in Cattle	141
<i>Brianna A. Jordan</i>	
Abdominal Surgery with a Flank Approach in Cattle	141
Exploratory Laparotomy	145
15 Surgery of Rumen	147
<i>Joseph W. Lozier</i>	
Introduction	147
Rumenotomy	147
Rumenostomy	150
References	152

16 Pericardiectomy	153
<i>Joseph W. Lozier</i>	
Introduction	153
Procedure	153
17 Abomasal Surgery	155
<i>Joseph W. Lozier</i>	
Displaced Abomasum	155
Abomasotomy	162
References	163
18 Intestinal Surgery	165
<i>Joseph W. Lozier</i>	
Introduction	165
Clinical Signs of Surgical Intestinal Lesions in Cattle	165
Diagnostics	166
Differentials	166
Supplies	166
Surgical Methods	167
References	168
19 Rectal Prolapse and Repair	169
<i>Joseph W. Lozier</i>	
Factors That Predispose to Rectal Prolapse	169
Types of Rectal Prolapse	169
Treatment	169
Section IV Female Reproductive and Urogenital Surgery	173
20 Ovariectomy	175
<i>Brianna A. Jordan</i>	
General Considerations	175
Indications	175
Surgical Approaches for cattle	175
Left Paralumbar Fossa Approach Ovariectomy in Cattle	177
Vaginal Approach Ovariectomy – Colpotomy in Cattle	178
Ovariectomy/Ovariohysterectomy in Miniature Pigs	180
References	183
21 Cesarean Section in Cows	185
<i>Brianna A. Jordan</i>	
Indications and Considerations	185
Restraint Positions and Related Abdominal Incision Sites	186
Left and Right Paralumbar Fossa Approach with Standing Restraint	188
Ventral Midline Approach in Dorsal Recumbency	190
Ventrolateral Approach in Lateral Recumbency	192
References	194
22 Episiotomy	195
<i>Brianna A. Jordan</i>	
Indications	195
General Considerations	195
Supplies	195

Anesthesia	195
Surgical Technique	195
23 Cesarean Section in Sheep and Goats	197
<i>Brianna A. Jordan</i>	
Indications	197
General Considerations	197
Patient Positioning and Abdominal Incision Sites	197
Standing Restraint for a Paralumbar Fossa Incision	198
Ventrolateral Recumbency for a Paralumbar Fossa Incision	200
Dorsal Recumbency for a Ventral Midline Incision	201
References	202
24 Cesarean Section in Sows	203
<i>Brianna A. Jordan</i>	
Indications	203
General Considerations	203
Restraint Positions and Related Abdominal Incision Sites	203
Presurgical Procedures	205
Anesthesia	205
Supplies	206
Surgical Procedures	206
Reference	209
25 Perineal Laceration Repair	211
<i>Brianna A. Jordan</i>	
General Considerations	211
Supplies	211
Presurgical Procedures for Both Second- and Third-Degree Laceration Repairs	211
Anesthesia	212
Surgical Technique for Second-Degree Laceration Repair	212
Surgical Technique for Third-Degree Laceration Repair	212
Postoperative Care of Second- and Third-Degree Perineal Lacerations	214
References	214
26 Repair of Vaginal Prolapse in Cows	215
<i>Brianna A. Jordan</i>	
General Considerations	215
Presurgical Procedures for All Methods	215
Anesthesia for All Methods	216
Supplies Needed for Vaginal Preparation	216
Buhner Suture	216
Modified Caslick's Method	216
Modified Minchev Method (Vaginopexy)	218
Button and Pin	220
Cervicopexy and Vaginopexy	220
Reference	222
27 Teat and Udder Surgery	223
<i>Andrew J. Niehaus</i>	
General Considerations	223
Basics Required for Successful Teat Surgery	223

Surgical Technique for Closure of Full-thickness Teat Defects	224
Procedures to Re-establish Milk Flow	229
Treatment of Leaky Teats	236
Teat Amputation	237
Amputation of the Udder or Portions of the Udder	239
References	245
28 Urethral Extension to Correct Urovagina	247
<i>Brianna A. Jordan</i>	
General Considerations	247
Supplies	247
Presurgical Procedures	247
Anesthesia	248
Surgical Technique	248
Postoperative Care	250
Reference	250
Section V Male Reproductive and Urogenital Surgery	251
29 Castration	253
<i>Andrew J.T. Muir</i>	
Castration	253
References	262
30 Surgery for Cryptorchidism, Ectopic Testicle, and Scirrhus Cord	263
<i>Andrew J.T. Muir</i>	
Cryptorchidism	263
Surgery for Ectopic Testicle in Bulls	265
Scirrhus Cord Removal	265
Equipment and Supplies Needed for Cryptorchid Castration	267
Reference	267
31 Inguinal Herniorrhaphy	269
<i>Andrew J.T. Muir</i>	
Inguinal Herniorrhaphy After Castration	269
Inguinal (Scrotal) Herniorrhaphy in Mature Bulls	270
Equipment and Supplies Needed Inguinal Herniorrhaphy	277
References	277
32 Penile and Preputial Surgery in Bulls	279
<i>Andrew J.T. Muir</i>	
Classifications of Penile and Preputial Conditions	279
Phallorrhaphy: Correction of Ventral and Spiral Deviations	280
Surgery to Correct Persistent Frenulum	287
Surgery to Correct Hematoma of Penis in Bulls	288
Circumcision	290
Preputial Bandaging	293
Equipment and Supplies Needed for Preputial Bandaging	295
Preputial Resection and Anastomosis ("Reefing")	295
Surgery to Correct Phimosis	297

Fibropapilloma Excision	298
Nonsurgical Treatment of Penile and Preputial Lacerations	298
Equipment and Supplies Needed for Penile Surgery	299
33 Preputial Diverticulectomy in Boars	301
<i>Andrew J.T. Muir</i>	
Equipment Needed for Preputial Diverticulectomy (Equipment Will Vary Depending on Desired Procedure)	305
References	305
34 Surgical Preparation of Teaser Bulls, Boars, and Rams	307
<i>Andrew J.T. Muir</i>	
General Considerations	307
Selected Surgical Procedures to Prevent Penile Intromission	308
Procedures to Block Sperm Flow	313
Equipment and Supplies Needed for Creation of Teaser Animals (Equipment Will Vary Depending on Desired Procedure)	316
Reference	316
35 Treatment of Urolithiasis	317
<i>Andrew J.T. Muir</i>	
General Considerations	317
Urethral Process Amputation (Small Ruminants)	319
Urethrostomy	320
Tube Cystostomy	325
Ultrasound-Guided Percutaneous Tube Cystostomy in Small Ruminants	329
Urethral Catheterization via Perineal Urethrostomy	330
Urethrotomy	331
Surgery for Subcutaneous Abdominal Inflammation and Edema Caused by Urethral Rupture	333
Equipment and Supplies Needed for Treatment of Urolithiasis (Equipment Will Vary Depending on Desired Procedure)	333
Section VI Musculoskeletal Surgery	335
36 Ligament and Tendon Surgery	337
<i>Joseph W. Lozier</i>	
Flexural Deformities	337
Flexor Tendon Laceration	338
Interosseus Muscle/Suspensory Ligament Rupture	339
Gastrocnemius/Achilles Tendon Rupture	339
Luxating Patella	339
Cranial Cruciate Ligament Rupture	340
References	341
37 Foot and Claw Surgery	343
<i>Brianna A. Jordan</i>	
Lameness	343
Hoof Trimming	343
Surgical Procedures	345
References	352

38 Joint Surgery	353
<i>Brianna A. Jordan</i>	
Joint Effusion	353
Arthrocentesis	354
Joint Lavage	355
Arthrotomy	356
Arthroscopy	357
References	358
39 Surgery for Fractures and Luxations	359
<i>Joseph W. Lozier</i>	
Introduction	359
Treatment Options	359
Management of Common Fractures	364
Coxofemoral Luxation	365
Distal Limb Luxations	367
Digital Subluxation	367
References	368
Index	371
