

# TABLE OF CONTENTS

## Pharmacology in Veterinary Anesthesia and Analgesia

List of Contributors

Preface

1 Pharmacokinetics and Pharmacodynamics 1

*Phillip Lerche and Jeffrey Lakritz*

2 Pharmacogenetics in Veterinary Anesthesia and Analgesia 13

*Jeffrey Lakritz*

3 Veterinary Regulatory Concerns Associated with Anesthesia and Analgesia for Food Animals 31

*Jeffrey Lakritz*

4  $\alpha_2$  Receptor Agonists and Antagonists 36

*Lydia Love*

5 Phenothiazines and Butyrophenones 55

*John A.E. Hubbell*

6 Benzodiazepines 60

*Sébastien Hyacinthe Bauquier*

7 Opioid Agonists and Antagonists 75

*Phillip Lerche*

8 Barbiturates 96

*Bonnie L. Hay Kraus*

9 Induction Drugs 106

*Jennifer E. Carter*

10 Inhalant Anesthetic Agents 123

*Phillip Lerche and Linda Barter*

11 Non-Steroidal Anti-Inflammatory Drugs 138

*Craig Willette*

12 Local Anesthetics 164

*Turi K. Aarnes*

13 Anticholinergics 171

*Phillip Lerche*

14 CNS Stimulants 177

*Caitlin Tearney*

|                                                                    |      |
|--------------------------------------------------------------------|------|
| 15 Centrally Acting Muscle Relaxants                               | 183  |
| <i>Bonnie L. Hay Kraus</i>                                         |      |
| 16 Neuromuscular Blocking Agents                                   | 202  |
| <i>Manuel Martin-Flores and Daniel M. Sakai</i>                    |      |
| 17 Anticholinesterase Drugs and Reversal of Neuromuscular Blockade | 215  |
| <i>Manuel Martin-Flores and Daniel M. Sakai</i>                    |      |
| 18 Sympathomimetics and Vasopressin                                | 221  |
| <i>Phillip Lerche</i>                                              |      |
| 19 Antihypertensives                                               | 236  |
| <i>Gianluca Bini</i>                                               |      |
| 20 Antiarrhythmic Therapies and Calcium Channel Blockers           | 252  |
| <i>Lance C. Visser</i>                                             |      |
| 21 Peripheral Vasodilators                                         | 266  |
| <i>Martin Kennedy</i>                                              |      |
| 22 Behavior Drugs                                                  | 283  |
| <i>Erin Wendt-Hornickle</i>                                        |      |
| 23 Adjunctive Analgesic Pharmaceuticals                            | 303  |
| <i>Reza Seddighi</i>                                               |      |
| 24 Diuretics                                                       | 315  |
| <i>Andrew Claude</i>                                               |      |
| 25 Antiepileptics                                                  | 324  |
| <i>Laurie Cook and Ashley C. Hechler</i>                           |      |
| 26 Antihistamines                                                  | 339  |
| <i>S. Bryce Dooley</i>                                             |      |
| 27 Anti-nausea, Antacid, and Prokinetic Drugs                      | 350  |
| <i>Phillip Lerche</i>                                              |      |
| 28 Insulin                                                         | 357  |
| <i>Phillip Lerche</i>                                              |      |
| 29 Electrolytes                                                    | 362  |
| <i>Teresa A. Burns</i>                                             |      |
| 30 IV Fluids                                                       | 370  |
| <i>Anusha Balakrishnan</i>                                         |      |
| 31 Blood and Blood Products                                        | 382  |
| <i>Julien Guillaumin</i>                                           |      |
| Index                                                              | 392. |
