

TABLE OF CONTENTS

The Busy Vet's Guide to Cytology What All the Blobs Mean ?

Preface

Note on magnification, staining, percentages and differential counts

Textbook format

PART ONE – CYTOLOGICAL BASICS

1 Cytology explained

2 Sampling and preparation

3 The basics of cytology

4 General principles of cytology

5 Infectious agents

PART TWO – CYTOLOGY OF SPECIFIC LOCATION

6 Skin and subcutaneous lesions

7 Gastrointestinal system

8 Genitourinary system

9 Respiratory system

10 Lymph nodes, spleen and thymus

11 Muscle, bone and synovial fluid

12 Cavity effusions

13 Blood films

PART THREE – FURTHER THOUGHTS ON CYTOLOGY

14 'Edge cases'

15 Submitting to an external lab

16 Digital and remote cytology

APPENDICES

A. Summary of cell examination and description

B. Decoding pathology reports – a cytological glossary

C. Backgrounds

D. Common crystals

E. Species/sex/breed predispositions

F. Further staining and extra tests

G. Mitotic figures

H. Pathology jokes

Bibliography

Index.
